

GenAI Edge – Capability Statement

Business Summary

GenAI Edge is a tutoring and data analytics consultancy dedicated to empowering individuals and organizations with today's most advanced data tools. We deliver:

- Custom training programs
- Data infrastructure support
- Real-world generative AI solutions for learners and teams

Core Competencies

- Data Visualization & BI Dashboards
- Staff Upskilling & Bootcamp-Style Tutoring
- AI/ML App Prototyping & Consulting
- ETL & Cloud Data Engineering (AWS, Snowflake)
- Reporting Automation & Workflow Optimization

Tools of Expertise

Power BI, Tableau, Python, SQL, R, Shiny, AWS SageMaker, Bedrock, Redshift, Snowflake, DBT, Apache Airflow, GitHub, LangChain, LLMs (GPT, Claude)

Sample Past Performance

- Government: Built Snowflake + Power BI dashboards for healthcare oversight
- Nonprofit: Trained staff on Tableau and Google Cloud tools
- Higher Ed: Delivered tutoring and AI bootcamps for STEM learners
- Finance: Developed NLP solutions and automated ETL pipelines for large data teams

Differentiators

- Flexible virtual delivery — from 1-on-1 to corporate teams
- Real-world portfolio development for learners

- Generative AI expertise for applied automation
- Fast onboarding and no-risk engagements
- US-based and available for government & private sector projects
